

Bio Dr. Päivi Kinnunen

Dr. Päivi Kinnunen heads the Material Recycling and Geotechnology group (~30 people) at VTT Technical Research Centre of Finland. She currently coordinates H2020 METGROW+ (Metals Recovery from Low Grade Ores and Wastes Plus) project. Before joining VTT she held industrial positions of Research Metallurgist, Senior Research Metallurgist (Biohydrometallurgy) and Specialist, and developed sustainable hydrometallurgical production processes for the mining and metal industry. In addition to technical competences, she holds a B.Sc. (Econ.) degree.
