Chrystelle Verhoest-Zerbo, Project Manager at ENGIE LAB Laborelec

Chrystelle Verhoest-Zerbo is a Bio-engineer graduated from Université Catholique de Louvain. She joined ENGIE LAB Laborelec in 2008, in the Department Product Line Sustainable Process Technology (SPRT). As a project engineer in bioenergies and biotechnologies, she is involved on the field to perform biomass supply sustainability assessment and due diligences on biomass conversion technologies and biotechnologies. Since 2016, as Project Manager, she coordinates different R&D projects on CO₂ reduction and valorisation.
