

## Frank SCHOOF, chairman Stichting Platform Geothermie

Frank Schoof is chairman/director of the Dutch Platform Geothermie, a non-profit organisation (NGO) with the core objective to foster the development of geothermal energy in the Netherlands. Members are operators, governmental organisations (provinces, municipalities), knowledge institutes and a wide variety of companies. He is co-ordinator of the Geothermal Knowledge Agenda ('Kennisagenda Aardwarmte') of the Dutch Ministry of Economic Affairs and the horticultural sector, LTO Glaskracht.

Furthermore he is active as interim- and project-director for several district-heating companies. (expansion, setting up new business, divestments)

Frank Schoof holds a Master's degree in applied mathematics from TU Delft, and has participated in several management-courses (Comenius, Erasmus/Berenschot, Blerick/Gent).
