

## **Michel Davidts, Senior Project manager, Eneco**

Michel Davidts is a specialist in the field of sustainable energy. After launching the Solar business for Eneco in 2007, Michel studied and developed innovation cases for biomass, wind energy, heat distribution and more. For more than 3 years now, Mr. Davidts mainly focuses on electric mobility. Charging stations, interchangeability and data management are his areas of expertise. He introduced several innovative services and platforms like the use of battery systems to optimize grid systems.
