

Paul Gistelinck, Director, Eandis

Paul is director of District Heating and Cooling for Eandis. Eandis is the local distribution system operator for electricity and gas, serving approximately 4,5 million customers in the Flanders region. In his function Paul leads a team of 12 highly specialized engineers. Currently Paul is setting up an new company warmte@vlaanderen in which both DSO's in Flanders (Infrac and Eandis) will join their efforts towards a cleaner environment.

Paul holds a Master degree in Electromechanical Engineering from UGhent He also holds a Master in Financial Engineering, Middle Management (Vlerick) and General Management (CEDEP/Insead).

Prior to his current position he spent his career in refining, banking, telecommunications, marketing, product development and IT.

Paul lives in Ghent, Belgium, and aims with the development of district heating to contribute substantially to the lowering of CO₂ in the dense populated Flanders region.
