

Rosalia Delgado – General Manager EIT RawMaterials CLC West

Rosalia Delgado is General Manager at EIT RawMaterials CLC West in Leuven (Belgium) for Belgium, Netherlands, the West of Germany, Luxembourg and the UK. She leads a team of business developers, financial and education officers working together on boosting circular economy based new business and innovation with the final aim of transforming the raw materials sector into a strength for the European industry, cities and the society.

Rosalia Delgado holds MSc's in Geology, Marine and Environmental Sciences (ES, FR, 1997-98) and a PhD in Civil Engineering (BE, 2006). After more than 10 years as researcher and research manager in different countries across Europe she worked for the European Spatial Agency on the development of operational Copernicus (GMES) products and services as Validation and Quality coordinator. In 2009, Rosalia Delgado became program and R&D manager at Flanders Hydraulics Research until she joined the KIC EIT RawMaterials in May 2016.
