NovoPolymers

Innovation in Sustainable Solutions

NOVOPOLYMERS

INTERNATIONAL SUSTAINABLE IMPACT : NovoPolymers offers encapsulation solutions for the solar panel producers. These patented components improve durability and power efficiency of the panel with technology not mastered by the competition. NovoPolymers' B2B partners, both producers and end-users are by definition export markets (Turkey, Asia, USA).

ABILITY TO EXECUTE IN FUTURE – ENABLERS & INHIBITORS : Drivers to be more successful in the future are end users demanding performance guarantees of solar panel producers, achieved cost reductions in manufacturing bringing solar PV to grid parity, and global electricity demand. Inhibitors are fast scalability in appropriate regions.
