

FLANDERS CLEANTECH INTERNATIONALISATION AWARDS

SOLENCO POWER

INTERNATIONAL SUSTAINABLE IMPACT : Solenco Power NV is an SME innovator in the field of renewable energy, founded in 2015, that specializes in innovative Hydrogen Energy Systems for family homes and commercial buildings. Their products enable EU households to be 100% independent from the grid and 100% independent from price fluctuations of fossil fuels. The products are considered to be the missing link for mass uptake of residential Solar PV and give an insurance against rising energy prices. This next generation technology will eliminate the uncertainty of supply and cost of energy for family homes and commercial buildings by using small-scale energy storage based on hydrogen technology.

ABILITY TO EXECUTE IN FUTURE – ENABLERS & INHIBITORS : The products of Solenco Power are a 100% zero-carbon producer of electricity, heat and zero emission fuel. They tackle:

- the need to store excess energy
- they provide eco-friendly energy solutions and reduce one's carbon footprint
- they provide for a fully integrated solution
- they provide a scalable solution
- they give solution to balance energy supply and demand
- they provide independency from large energy players
